PERMETHRIN - 2.0%**

**PRODUCT**  
**#97185 - 15 oz. can**

**GUARANTEED TO WORK OR YOUR MONEY BACK**

# BENGAL NON-CONDUCTIVE WASP & HORNET KILLER

## How It Works

- Bengal Non-Conductive Wasp & Hornet Killer is solvent-based with 2% synthetic pyrethroids to provide an instant knockdown and kill.
- For use outdoors on wasp, hornets and yellow jackets.
- Not for use on asphalt shingles or vinyl siding. Do not allow spray to contact plants or shrubs.

## How To Use

- If possible, treat wasp nest when air is still or in light breeze with the wind at your back.
- Spray the nest from a distance of 10 - 20 feet until thoroughly soaked, contacting as many insects as possible.
- Treating in early evening hours will be most effective because all the wasps will be resting on the nest.
- Safe for use on electrical equipment up to 38,800 volts.

### PRODUCT #97185

- **ACTIVE INGREDIENT:**  
PERMETHRIN - 2.0 %,
- **EPA REG. NO.:** 68543-42
- **AVAILABLE IN AEROSOL CAN**  
#97185 - 15 oz.
